

Please reject petition number 04-160! It is bad enough that you people won't give satellite TV a break but do you have to pick on satellite radio? Cable companies have a monopoly! Do you want Clear Channel and Infinity to have one too? What if they merge? You won't let Directv and Dish network merge! May be you should change your name from the FCC to the FBC (federal business commision)! XM radio provides better quality, better service, and on top of that I pay for it! Don't let Clear Channel and INfinity tell me what I should get if I pay for it! the National Broadcaster's Association is a disgrace! Please keep XM and Sirius exactly the way they are now and leave them alone!
